Students are expected to follow the guidelines for written work provided by the professor and to seek clarification if they have questions about the requirements.

## **Artificial Intelligence Policy**

### **Definitions of Generative AI**

For the purposes of this course, generative AI refers to artificial intelligence systems capable of producing human-like text, images, or other content. This includes, but is not limited to:

- Large language models (e.g., GPT-3, GPT-4)
- Text-to-image generators (e.g., DALL-E, Midjourney)

- AI-powered writing assistants (e.g., ChatGPT, Claude)
- Automated content generators

### **AI Use Policy**

In this course, the use of AI is permitted and encouraged as a learning tool, with the following guidelines:

- **Allowed:** Using AI for feedback on annotated bibliographies and syntheses, as outlined in the assignment.
- **Allowed:** Using AI for the optional reflection activity.
- **Not Allowed:** Submitting AI-generated content as your own work without substantial human input and critical analysis.
- **Not Mandatory:** The use of AI is optional. Students are not required to use AI tools if they prefer not to.

### **Rationale for AI Policy**

This AI policy is designed to align with our course objectives:

1. It supports the examination of public administration theories by encouraging critical engagement with AI feedback.
2. It enhances literature review skills by allowing AI to provide additional perspectives on annotations and syntheses.
3. It improves writing skills by providing an additional source of feedback and encouraging revision.
4. It fosters critical thinking by requiring students to evaluate and incorporate AI feedback thoughtfully.
5. It contributes to professional development by familiarizing students with AI tools they may encounter in their public administration careers.

### **Guidance for Students on AI Use**

- When using AI for feedback, always cite it as a source. For example: "ChatGPT (Version X.X) [AI model]. OpenAI. Feedback received on [Date]."
- Be critical of AI-generated content. AI can make mistakes or provide biased information.

- Use AI as a tool to enhance your learning, not as a substitute for your own critical thinking and analysis.
- We will discuss ethical AI use and its implications for public administration during our course.

### **Repercussions for Policy Breaches**

- Suspected misuse of AI (e.g., submitting AI-generated content as your own without proper attribution) will be addressed on a case-by-case basis.
- Detection methods may include inconsistencies in writing style, unusual phrasing, or content that doesn't align with the student's demonstrated knowledge and skills.
- Consequences for policy breaches may range from a required revision of the assignment to more severe academic integrity penalties, depending on the nature and extent of the misuse.

Remember, the goal of this policy is to enhance your learning experience and prepare you for a future where AI will likely play a significant role in public administration. Use these tools responsibly and ethically to support your academic and professional growth.

### **Goals and Assessment of AI Use**

The goals for AI use in this course are:

1. To teach students to use AI as a complementary tool for enhancing critical thinking and writing skills.
2. To prepare students for professional environments where AI tools are increasingly common in public administration.
3. To encourage critical evaluation of AI-generated feedback and content.
4. To foster ethical and responsible use of AI in academic and professional settings.

Assessment of these goals and overall learning objectives will be conducted through:

- Comparison of initial drafts with AI-assisted revisions
- Analysis of student reflections on the learning process
- Evaluation of class participation and discussions
- Periodic comparative assignments (with and without AI assistance)
- Review of AI usage logs

- Assessment of peer review quality
- Comprehensive final project or exam
- Professional development reflection on future AI use in public administration

These assessment methods will help ensure that AI use is enhancing, rather than replacing, critical thinking and analytical skills essential to public administration.

## 11. Course Requirements

### 1) Weekly Annotated Bibliography, Synthesis, and Reflection

To facilitate class discussions and prepare you for comprehensive exams, your weekly writing assignment comprises two main components: an annotated bibliography of each weekly reading and a 2- to 3-page synthesis of the week's readings. You may also submit a personal reflection for bonus points.

#### Definitions

- **Annotated Bibliography:** An annotated bibliography is an organized list of sources, similar to a reference list. Each source is followed by a brief (approximately 150 words) descriptive and evaluative paragraph—the annotation. For this course:
  - **Citation:** Provide a full citation in APA or Chicago author-date style.
  - **Summary:** Summarize the central theme and key points in your own words.
  - **Relevance:** Note the source's relevance to the week's topic and its implications for public administration.

The purpose is to review the literature on the week's topic, aiding in class discussions and developing your ability to distill and synthesize complex information.

- **Synthesis:** A synthesis combines information from multiple sources to present a comprehensive understanding or argument. In this context, your sources are the weekly readings. The synthesis should:
  - Identify patterns and themes across readings;
  - Draw connections between sources; and
  - Address contradictions among sources or within individual readings.

This critical analysis encourages deeper thinking about the readings and their implications for public administration theory and practice.

- **Reflection** (Optional Bonus Activity): Reflection is a metacognitive practice that allows you to analyze your learning process, feedback received, and the evolution of your understanding of the week's topic. This activity is optional and offers bonus points. It involves self-assessment and promotes continuous improvement.

## Assignment Details

**Objectives:** Engage deeply with course readings, reflect on their implications for public administration, and collaborate with peers and AI to enhance analytical and writing skills.

**Incorporating AI:** We'll use AI tools like ChatGPT to provide feedback on your assignments, aiming to refine your comprehension and writing skills. Remember, AI is a complementary tool to your critical thinking.

## Assignment Components

### 1. Annotated Bibliography

- **Purpose:** Review literature on the week's topic to prepare for synthesis and class discussions.
- **Process:**
  - Write an annotation (150 words) for each weekly reading, including:
    - \* Full citation in APA or Chicago author-date style
    - \* Summary of central themes and key points.
    - \* Relevance to the week's topic.
  - **Optional:** Submit your annotations to AI for feedback using the prompt: *"I've completed an annotated bibliography for an article. The citation is [insert citation]. The summary I wrote is [insert summary]. I've noted the relevance as [insert relevance]. Could you provide feedback on my summary and relevance note?"*
  - Revise based on AI feedback as desired. This activity is ungraded and for your benefit.

### 2. Synthesis

- **Purpose:** Integrate main themes and insights from weekly readings, discussing their implications for public administration.
- **Process:**
  - Write a 2- to 3-page synthesis, focusing on:
    - \* Critical analysis rather than mere summaries.
    - \* Identifying patterns, connections, and contradictions.

- Submit your draft to Canvas for peer review. Each student will be assigned two peers.
- Review your peers' syntheses using the Canvas rubric. Provide kind, constructive, and specific feedback. The rubric is a guide; feel free to add additional comments.
- Revise your synthesis based on peer feedback.
- Submit the revised synthesis to AI for feedback using the prompt: *"I've synthesized information from [number] articles on [topic]. Here's my draft of the synthesis [insert draft]. Could you provide feedback and suggest any connections or contrasts I missed?"*
- *Revising a second time based on AI feedback is optional and ungraded.*
- Submit your final synthesis *and* the AI's feedback to Canvas for grading.
- **Grading:**
  - **Completeness:** 20%
  - **Quality:** 40%
  - **Peer Review:** 10%
  - **AI Feedback:** 10%

The synthesis, peer review, and AI feedback will be graded as a single assignment. Your revised synthesis will be evaluated using the Canvas rubric.

### 3. Bonus Point Reflection Activity (Optional)

- **Purpose:** Engage in metacognitive practice to analyze your learning process and feedback.
- **Process:**
  - After completing your revised synthesis and reviewing AI feedback, reflect on the entire process, including annotated bibliographies and peer reviews.
  - Consider the following questions (optional):
    - \* How did your understanding of the readings evolve?
    - \* Which feedback (from peers or AI) was most beneficial, and why?
    - \* How did the peer review process impact your perspective or approach?
    - \* What strategies were most effective in distilling and presenting information?
    - \* How can you apply lessons from this assignment to future tasks in public administration or other professional settings?
  - Write a brief reflection encapsulating your thoughts.
  - Submit your reflection to AI for feedback using the prompt: *"I've completed a reflection on my learning process for this week's synthesis assignment. Here's my reflection [insert reflection]. Could you provide feedback or ask questions to provoke further thought?"*

- Submit both your reflection and the AI's feedback to Canvas for bonus point consideration.

### **Skip Week!**

Students may skip one week of the annotated bibliography, synthesis, and reflection assignment during the semester. This option is intended to accommodate unexpected events or personal commitments. If you choose to skip a week, please notify the professor in advance. In place of the final synthesis during the skip week place a note in the Canvas assignment indicating that you are using your skip week.

## **2) Reading Discussion Facilitation**

A group of students will be responsible for facilitating the discussion of the assigned readings each week. The facilitators will lead the class in a discussion of the readings, pose questions to stimulate critical thinking and analysis, and encourage active participation from all students. The facilitators will also provide a brief summary of the readings and highlight the key points for discussion. The facilitators will be selected at the beginning of the semester, and the schedule will be posted on *Canvas*. The facilitators will be graded based on the following criteria:

- Preparation: The facilitators are well-prepared and have a thorough understanding of the readings.
- Engagement: The facilitators actively engage the class in discussion and encourage participation from all students.
- Critical Thinking: The facilitators pose thought-provoking questions and stimulate critical thinking and analysis.
- Communication: The facilitators communicate clearly and effectively, ensuring that all students understand the key points of the readings.
- Leadership: The facilitators lead the discussion in a professional and respectful manner, creating a positive learning environment.
- Participation: The facilitators actively participate in the discussion and contribute to the class's understanding of the readings.

## **3) MPA Comprehensive General Area Essay Exam**

Students will complete a comprehensive general area essay exam as part of the MPA program's comprehensive exam requirement. The exam will consist of two questions from which students will choose one to answer. The questions will be based on the course readings and discussions and will require students to demonstrate their understanding of

public administration's key concepts, theories, and debates. The exam will allow students to synthesize their learning in the course and demonstrate their ability to think critically and write clearly about complex issues in public administration. Students who do not pass the exam on the first attempt will have the opportunity to retake the exam once during finals week. The grade for the exam is pass/fail. Students who do not pass on the second attempt will be required to retake the course.

A peer review process will be used to provide feedback on the literature review, and students will have the opportunity to revise and resubmit their work based on the feedback received. Peer reviews will be conducted anonymously on *Canvas*, and students will be assigned to review the work of their classmates. The final draft of the literature review will be submitted on *Canvas* and graded by the professor. The length of the literature review will be approximately 15 pages, double-spaced, in APA or Chicago author-date style.
